**MEMORANDUM FOR SEE DISTRIBUTION**

**SUBJECT: Delegation of Special Emergency Procurement Authority in Support of a Contingency Operation or to Facilitate Defense Against or Recovery from Nuclear, Biological, Chemical, or Radiological Attack**

Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Public Law 108-106) increases the amount of the micro-purchase threshold and the simplified acquisition threshold for procurements of supplies or services by or for an executive agency that, as determined by the head of the agency, are to be used in support of a contingency operation or to facilitate the defense against or the recovery from nuclear, biological, chemical, or radiological attack. In addition, the head of the agency carrying out a procurement of supplies or services to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack may treat such supplies or services as a commercial item. These authorities have been implemented in the Federal Acquisition Regulation (FAR) through Federal Acquisition Circular 2001-20 entitled "Special Emergency Procurement Authority," issued on February 23, 2004.

I hereby delegate the authority to make the above determination to each Army Head of Contracting Activity (HCA), and I authorize HCAs to make additional delegations to any official in procurement channels, who is at least one level above the contracting officer. Each determination under the above authority shall be made on an individual basis and shall be in writing, and the underlying rationale shall be documented in the contract file.

This delegation of authority shall remain in effect for three years from the date of this memorandum or until the Director of Defense Procurement and Acquisition Policy implements Section 1443 of Public Law 108-106 in the Defense FAR Supplement or a class deviation from the FAR, whichever occurs sooner.

SUPPLEMENTARY INFORMATION:

**A. Background** This interim rule implements Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108-136). Section 1443 increases the amount of the micro-purchase threshold and the simplified acquisition threshold for procurements of supplies or services by or for an executive agency that, as determined by the head of the agency, are to be used in support of a contingency operation or to facilitate the defense against or the recovery from nuclear, biological, chemical, or radiological attack. Section 1443 also authorizes the expanded use of Simplified Acquisition and Commercial Items procedures.

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

**B. Regulatory Flexibility Act** The changes may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq. However, the increased thresholds are limited to procurements that support a contingency operation or to facilitate the defense against or the recovery from nuclear, biological, chemical, or radiological attack. There are no data available on the number of procurements that will be eligible. We expect the increased thresholds to this limited class of procurements will apply to a very small number of small entities.

An Initial Regulatory Flexibility Act Analysis has been prepared and is as follows:

Initial Regulatory Flexibility Act Analysis--FAR Case 2003-022

This Initial Regulatory Flexibility Analysis has been prepared in accordance with Section 603, Title 5, of the United States Code.

1. Description of the reasons why action by the agency is being considered. This interim rule amends the Federal Acquisition Regulation (FAR) in order to implement Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108-136). Section 1443 increases the amount of the micro-purchase threshold and the simplified acquisition threshold for procurements of supplies and services to support a contingency operation or to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack.

2. Succinct statement of the objectives of, and legal basis for, the interim rule. This interim rule implements Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108-136).

3. Description of, and, where feasible, estimate of the number of small entities to which the interim rule will apply. The increased thresholds are limited to procurements that are to support a contingency operation or to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack. There are no data available on the number of procurements that will be eligible. However, we expect the number of small entities that will be impacted by the increased thresholds to this limited class of procurements to be very small. In addition, although not required by the statute, the interim rule raises the small business set-aside ceilings for purchases made under the authority of Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108-136).

4. Description of projected reporting, record keeping, and other compliance requirements of the interim rule, including an estimate of the classes of small entities which will be subject to the requirement and the type of professional skills necessary for preparation of the report or record. There are no reporting, record keeping, or other compliance requirements for this interim rule.

5. Identification, to the extent practicable, of all relevant Federal rules which may duplicate, overlap, or conflict with the interim rule. This rule does not duplicate, overlap, or conflict with other relevant Federal rules.

6. Description of any significant alternatives to the interim rule, which accomplish the stated objectives of applicable statutes and which minimize any significant economic impact of the interim rule on small entities. There are no

significant alternatives to the interim rule that would accomplish the stated objectives yet further reduce impact on small entities. The rule includes only FAR text revisions required to implement the statute.

The FAR Secretariat has submitted a copy of the Initial Regulatory Flexibility Analysis (IRFA) to the Chief Counsel for Advocacy of the Small Business Administration. Interested parties may obtain a copy from the FAR Secretariat. The Councils will consider comments from small entities concerning the affected FAR parts 2, 10, 12, 13, 15, 19, and 25 in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, et seq. (FAC 2001-20, FAR case 2003-022), in correspondence.

**C. Paperwork Reduction Act** The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.

**D. Determination To Issue an Interim Rule** A determination has been made under the authority of the Secretary of Defense (DoD), the Administrator of General Services (GSA), and the Administrator of the National Aeronautics and Space Administration (NASA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary because the FAR coverage implements Section 1443 of the Services Acquisition Reform Act of 2003, signed on November 24, 2003, which provides urgently needed emergency authorities. However, pursuant to Public Law 98-577 and FAR 1.501, the Councils will consider public comments received in response to this interim rule in the formation of the final rule.
